

Before the  
FEDERAL COMMUNICATIONS COMMISSION  
Washington, DC 20554

In the Matter of )  
  
Revision of the Commission's Rules ) CC Docket No. 94-102  
to Ensure Compatibility with Enhanced )  
E911 Emergency Calling Systems )  
April 15, 2002 )

First Quarterly Report of Iowa Wireless Services

This report is filed pursuant to the Commission's Fourth Report and Order in CC Docket No. 94-102, on behalf of Iowa Wireless Services and the Iowa Wireless Partners listed in Attachment A (Iowa Wireless). Iowa wireless filed its last report on January 15, 2002. Iowa Wireless recently received information from Nokia, our network vendor, regarding the availability of software that will provide TTY access to E-911. At this time, Nokia is in the trial stage with some customers for TTY access.

Iowa Wireless is gathering information regarding the exact software and hardware needed for compliance with the FCC's TTY rules. Once this information is received Iowa Wireless will file a follow up report or a temporary waiver request of the FCC's applicable rules.

Iowa Wireless's ability to meet the FCC's deadlines will be dependent upon the cost and the availability of the necessary software and hardware. Once these factors are known Iowa Wireless will reevaluate its ability to meet the June 30, 2002 deadline. Iowa Wireless expects to have this information within the next several weeks and will inform the Commission of its progress.
